Our policy for teaching Japanese at Niigata University

Nowadays, it is quite easy to learn some information about a language through the Internet. However, it is not that easy to learn and acquire the ability to output your ideas and thoughts using that language all by yourself.

Here at Niigata University, all our Japanese language learning courses are aiming at cultivating students' ability to acquire that. It is true that if people want to say something in Japanese, they need to have appropriate expressions for the situation in Japanese and take that out of their brains and say it. What do you think we need to do to make it possible? Our answer to that question is that we should get rid of the old language learning style; learning grammar and accumulating the lexical knowledge.

Have you become a good Japanese user through traditional grammar based studying yourself? Have you ever questioned yourself asking "Why am I still not able to use Japanese correctly and fluently, after studying it for so long and so hard?". Studying grammar surely makes you feel that you really study a lot but you should realize that you haven't practiced language much to be able to use it in real situations. To become a good user of Japanese, you need to practice appropriate Japanese phrases depending on the situation you actually face.

If you have done some sports earnestly and eagerly, you do understand that at the beginner's level, learning correct forms are important and in the end quickest way to become a good player of that sport. And you even recognize that the practicing for learning correct forms is quite boring and tiresome activity. It is the only way that you will become a good player of that sport through boring, tiresome basic training. In language learning, that basic training is mimicking and memorizing the model sentences.

Our Japanese learning courses are in 2 main categories, which are; Learning Japanese Course and Learning in Japanese Course. We also offer Learning in English Course and Learning about Teaching Japanese Course.

Now, let's get going and learn Japanese with us and make yourself a better Japanese user.
